## UNFILTERED TAP WATER – NOT IDEAL FOR SKIN AND HAIR

### HARMFUL CHLORINE

To kill bacteria and germs, the water supply works add chlorine into the tap water. Chlorine dries out your skin and hair and has harmful long term effects. Besides this, trihalogenmethan occur during showering which is hazardous to health

### TOXIC HEAVY METALS

Heavy metals in the water can be absorbed by the body through our skin. Heavy metals are the root of many chronic diseases and attack, for example, the nervous system or the cell activities might be disturbed.

### UNDESIRABLE HARD WATER

Hard water leads to limescale on the fittings and the tiles in your bath. Limescale attachment is the base for further dirtying. As a result: you don't feel comfortable any more in your own home. Hard water may also lead to an increased consumption of shampoos and shower gels which fosters the dry out of skin and hair.

## GET THE FEEL-GOOD-SENSATION WITH YOUR DAILY SHOWER!

### REDUCES THE DRY OUT OF SKIN AND HAIR

Showering and bathing with unfiltered and hard tap water may dry out your skin and hair. The shower filter reduces the chlorine and converts the scale. The filtered water keeps your hair noticeably soft and touches your skin enjoyable mild. The reasons for itching are going to be reduced.

### CLEAN AND SAVE WATER FOR THE WHOLE FAMILY

Protect your family from harmful effects of heavy metals and chlorine in the water. Your skin is in daily contact with tap water and is able to absorb contaminants. Especially babies and young children have sensitive skin.

### SAVE TIME AND MONEY

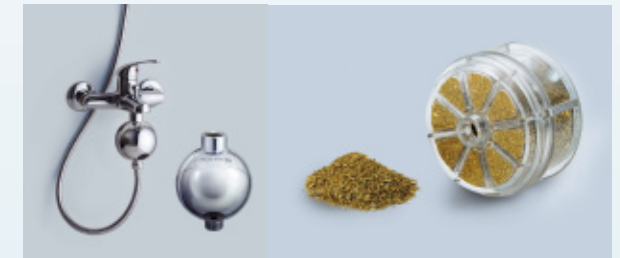

The Equator shower filter converts the lime and reduces the limescale attachment on the fittings and tiles as well the effort for cleaning. Enjoy more free time instead of cleaning!

## FILOPUR – 40 YEARS EXPERIENCE IN WATER FILTRATION

### KDF FILTER MEDIA

The patented and NSF certified KDF filter media consists of a high-purity copper-zinc-alloy which treats the water with an electro-chemical reaction (based on the redox-reaction principle). Chlorine is converted to harmless chloride, lime is converted to aragonite and the heavy metals plate out onto the medium's surface.

KDF reduces contaminants even with a high flow rate and hot water and therefore is ideally for shower and bath applications.

### POINT-OF-USE INSTALLATION

The Filopur Equator shower filter is directly installed at the fitting of your shower and filters the water which is used for showering or bathing only. This is highly efficient and saves money.

### YOUR ADDITIONAL ADVANTAGES

- Beautiful and compact design
- Smooth surface minimizes the attachment of dirt
- Easy installation and filter change without professional help
